Dear Parents and Guardians,

As the end of the year is fast approaching, I want to take a moment to thank each and every parent for such a wonderful year. It was great working with positive, supportive parents and building a team that created an excellent learning environment for the children.

We had fun this past week learning about the life cycle of a frog. We read many nonfiction books that described the life cycle, talked about what frogs like to eat, and where they make their habitats. Some fascinating facts about frogs include: they don't need to drink because they absorb water through their skin, most frogs can jump more than 20 times their own body length, and a group of frogs is called an army of frogs. After learning about frogs, each student wrote a few sentences about a frog and illustrated a picture about their writing. Please ask your child to tell you about the life cycle of a frog.

Next week we will wrap up our year by talking about summer and safety tips. Please also remember to send a sack lunch with your child (no peanuts please 😊) on the last day (Wednesday, May 20th). Thanks so much. Enjoy a safe and relaxing weekend.

Mrs. Galles

Upcoming Events and Reminders

Last Day of school: Wednesday, May 20th 1:30 Dismissal.

Don't forget to send a sack lunch with your child. We will eat lunch together one last time as a class 😊

Please let me know if any after school changes prior to this date if at all possible. Your child's report card will be sent home in an envelope. Please make sure to send their folder and backpack on the last day. If any lunch money, book money, etc. is owed you may pick up your child's report card in the elementary office once paid in full. Thanks so much 😊
